

TUFH 2022 Declaration

The Vancouver Vision: Forward in Concert

TUFH2022 gathered members from around the world in a hybrid model of knowledge sharing where participants developed wisdom to determine a collective approach to an ever-changing world; a world currently in crisis on a range of issues.

To assist the process, a pre-conference day reviewed developments since the Thunder Bay Communiqué was adopted by participants in Rendez-Vous 2012 – five world conferences in one, including *TUFH2012*.

Through a process involving the 4D Appreciative Inquiry approach – **Discover, Dream, Design, and Deliver** – the global citizens gathered on the traditional and unceded territory of the xʷməθkʷəy̓əm (Musqueam) Nation in Vancouver distilled the essence of that Communique into four themes and **discovered** what relevant achievements had occurred to this point.

Delegates then **dreamed** of what might collectively be achieved in the next 10 years, and **designed** what must be **delivered** in those 10 years to help build a healthier and more just world.
