Delegates then dreamed of what might collectively be achieved in the next 10 years, and designed what must be delivered in those 10 years to help build a healthier and more just world.

The Vancouver Vision: Forward in Concert

TUFH2022 gathered members from around the world in a hybrid model of knowledge sharing where participants developed wisdom to determine a collective approach to an ever-changing world; a world currently in crisis on a range of issues.

To assist the process, a pre-conference day reviewed developments since the Thunder Bay Communiqué was adopted by participants in Rendez-Vous 2012 – five world conferences in one, including TUFH2012.

Through a process involving the 4D Appreciative Inquiry approach – Discover, Dream, Design, and Deliver – the global citizens gathered on the traditional and unceded territory of the xʷməθkwəy̓əm (Musqueam) Nation in Vancouver distilled the essence of that Communiqué into four themes and discovered what relevant achievements had occurred to this point.

Delegates then dreamed of what might collectively be achieved in the next 10 years, and designed what must be delivered in those 10 years to help build a healthier and more just world.
